DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claims 45 and 51 are remain pending in the application. Claims 46-50 stand withdrawn from consideration.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 45 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hashimoto, US Patent No. 5,442,470, in view of Lee, US Patent No. 5,988,827.

Regarding claim 45, Hashimoto discloses a liquid crystal display (LCD) device (figure 2) having a mold frame (4), an LCD panel (1), a circuit board (3) fitting in a groove (4b) formed from lower surface of the frame (4), wherein the circuit board (3) was electrically coupled to the LCD panel (1) by a plurality of flexible printed circuits (FPC) (col. 4, ln. 43) and the FPC is bent in a U-shaped (fig. 3, col. 4, ln. 62). Hashimoto, however, does not explicitly disclose the circuit board having a driver integrated circuit (IC). Lee does disclose a circuit board may include a plurality of ICs, which connected to the LCD (col. 2, ln. 63). Therefore, it would have been obvious to one skilled in the art at the time of the invention was made to employ the Hashimoto's

circuit board including IC as shown by Lee in order to drive an LCD device and to save a space in a display device.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claim 45 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 8 of U.S. Patent No. 6,862,053. Although the conflicting claims are not identical, they are not patentably distinct from each other because both application and patent disclose an LCD device in which a FPC attaching to an LCD panel and having an IC fitted in a frame receiving as claimed.

Allowable Subject Matter

5. Claim 51 is allowed.
